Future Solution	July 2015 – January 2016	Teaching	<ul style="list-style-type: none">Teach 100+ students about Computer Basics (Hardware and Software).

COURSEWORK/LIVE PROJECTS

Academic/Live Project 1	Created a website for college library system using Html, CSS, Php, and Javascript for frontend and my SQL for the database which helps for managing the database of books at the college library. We can issue books from that portal and also see which books are available in the college library.
Academic/Live Project 2	Making a live project on LiFi , where we will transfer audio waves via LED or infrared light wirelessly only with the light beams. With the help of this Project, we will play a song on phone and the song will play on the speaker on another end only with the help of light rays.
